WINSTON-SALEM

Preface

Winston-Salem is North Carolina's largest city and one of the fifty leading industrial cities of the United States. It is the world's tobacco manufacturing metropolis, its factories producing more tobacco products than any city in the world.

Historical

Salem was founded in 1766, and Winston incorporated in 1846. The two communities were consolidated in 1913, and the city has long been known as the "Twin City." Salem was founded by the Moravians, and Winston grew up on the edge of this settlement.

Location

The city is located in the famous Piedmont Plateau of the Carolinas. It is but 15 hours by train from New York and 115 miles west of Raleigh.

There are three lines of railroads: Southern, Norfolk and Western and Winston-Salem Southbound.

More state highways radiate from here than any other city in the state and 118 interurban motor buses arrive and depart each day.

Population

According to estimates based upon reports from the United States Census Bureau, and dependable data gathered from the records of the various departments of the city government, the population of Winston-Salem on September 1 was estimated as being 81,456.

Some idea as to the tremendous strides being made by Winston-Salem might be gained by a knowledge of the growth of its population. In 1910 it had a population of 22,356, and in 1920 the United States Census revealed a population of 48,395; more than a 100 per cent increase. Winston-Salem, during that period, was one of a limited number of cities in the United States showing such an increase.

It is anticipated that by 1930 Winston-Salem will have a population of around 100,000. This is based upon the estimates that have been made by the City Planner, who laid out a city plan, and upon the plans that are being carried out by the municipal authorities for municipal improvements to take care of that number of people by 1930.

Industrial

Winston-Salem's fame as an industrial community is probably best known because of its tobacco industry. This city is the home of "Camels" and "Prince Albert" smoking tobacco. The cigarette output of the Winston-Salem factories represent over sixty per cent of all the cigarettes made in America.

While tobacco is its chief industry, there are made here many other products of a diversified nature. Winston-Salem is the home

(Continued from Page 10)

(Continued on Page 11)

of the largest heavy knit underwear mill in the world, and it is among the six leading furniture manufacturing centers of the country. Blankets, hosiery and other articles in large volume are made here. Its more than 100 factories turned out sixty-five distinct products. The annual value of its factory products is over $260,000,000.

Revenue Producer

The tobacco factories of this city pay each year to the United States Government over $130,000,000 for revenue stamp and tobacco products. From this city comes one-fifth of all the internal revenue received by the United States Government. The United States Post Office in this city, which cost over $350,000, is paid for every day through the purchase of tobacco stamps.

Winston-Salem is one of the few inland ports of the country. It is more than 150 miles from a navigable stream, yet the duty it pays on imports, some $6,000,000 per annum, exceeds that collected at some of the better known seaports. Congress, by special act, made this city a port of entry and its federal building serves as a custom house, duties being collected and paid here on the same basis as at New York or other ports.

School Progress

The school system of Winston-Salem is one of the most modern in the South. The development of its schools is not only confined to modern buildings, but each school has been provided with play areas, serving as school athletic grounds and neighborhood recreational centers. There is an average of ten acres of grounds surrounding the schools of the city, and part of the High School facilities include a memorial auditorium erected at a cost of $750,000.

Winston-Salem is the home of Salem College, a class A girls college, founded in 1775. This college is one of the oldest girls schools in the country and except for vacation periods has never closed its doors during the entire period of its existence.

Significant Facts

Among the outstanding facts about the city is that it has a church for every factory. That is, there are 100 factories and 100 churches. The city is often referred to as one of churches, schools and substantial business institutions, where the home is paramount and where the church is the foundation of the community life.

Winston-Salem is one of the country's largest leaf tobacco centers. It has gigantic warehouses covering acres of grounds in which each year are sold millions of pounds of leaf tobacco. As much as 50,000,000 pounds of leaf tobacco has been sold in Winston-Salem during one season

HINTS FOR WISE MEN

Directory advertising and success of business are Siamese Twins.

$1.00 Bills for 50c would be a great bargain; but no more, than Directory advertisements to progressive business men.

Know how to correctly spell a name before saying it is not in The Directory.

If you stood 1,000 men, who ought to buy your goods, in a row, you certainly would sell some of them. The City Directory puts them all in a ROW for you. Moral—advertise in your Directory.

Master minds of the Business World recognize advertising as the foundation stone upon which vast fortunes have been and still are being built. Your City Directory is one of the corner stones.

NOTE—This is a department which we have added to the Winston-Salem Directory and which we think will be found very useful to our patrons. A business man on the return to his office is often requested to call such and such a number without having the slightest idea as to whom he is to speak. Before calling your number, a glance at the following list often times will prove to be a source of great relief. Publrs.

This department of the directory was added by special request, but really does not belong in a regular city directory and this department, for a good reason, will hereafter be discontinued.

All police officers have keps. To turn in alarm, break glass over key in front of box, unlock and open door, pull lever down once and let go.

Remain at box to direct department to scene of fire. To turn in alarm by telephone, don't get excited. Take plenty of time, stating street and location between cross streets.

Putting the Out-of-the-way Business on the Main Street For a Few Dollars

The business that is up-stairs in some building or off the beaten trail can overcome its location—can put itself on the Main Street of Public Attention by advertising in the City Directory.

Your advertisement entitles you to be listed in heavy type under all of the classifications of your business in the new City Directory now being compiled. This makes your business **STAND OUT.** Thousands of people consult this buyers' guide every year.

Thus, for a very small sum you can be located on

The Main Street of your City Catalog

for a whole year.

HINTS FOR WISE MEN

Directory advertising and success of business are Siamese Twins.

$1.00 Bills for 50c would be a great bargain, but no more than Directory advertisements to progressive business men.

Know how to correctly spell a name before saying it is not in The Directory.

If you stood 1,000 men, who ought to buy your goods, in a row, you certainly would sell some of them. The City Directory puts them all in a ROW for you. Moral—advertise in your Directory.

Master minds of the Business World recognize advertising as the foundation stone upon which vast fortunes have been and still are being built. Your City Directory is one of the corner stones.

Patronize Your City DIRECTORY

Boost Your City

ADVERTISING PAYS

When you advertise in the directory you advertise your city as well.

This Directory is placed in libraries and with commercial organizations in various cities thruout the United States.

The City Directory is a complete index to your city and tells the story of its progress.

If your business is not listed as it should be, you are missing a golden opportunity, not only to increase your business but to promote the growth of your city as well.

The possibilities of the City Directory cannot be properly told in words.

The First Place the Buying Public Goes!

Why the City Directory first? It saves time. The ads are classified. Your customers find you instantly. It's the logical place for them to go because its an index to the city.
